

Solid End Mill

Carbide material

L1~L48

Tool Selection Guide **L2~L9**

Application and selection	L2
Solid End Mill Identification System	L4
Case studies	L9

Surface finish oriented **L10~L14**

Square	L10
For Automatic Lathes	FESW L14

Multi-purpose **L15~L17**

High efficiency chip evacuation **L18~L23**

Multi-functional, high efficiency	3ZFK	L18
Variable Pitch		L20
Roughing		L22

Ball-nose End Mill **L24~L27**

Ball-nose	L24
Special corner-R shaped (For High Feed)	6PDRS L26

Hardened Materials **L28~L29**

For Aluminum & Non-ferrous Metals **L30~L32**

Square (Variable Pitch with wiper edge)	3NESM	L30
Roughing		L32

Recommended Cutting Conditions **L33~L48**

L

Multi-function high efficiency

ZFK Series
